HIGHLIGHTS & DESCRIPTION

Black bear hunt in Alberta / Winefred Lake

Overview

We work with a reliable outfitter offering traditional black bear hunting in the northwestern part of Alberta, Canada, an area with a dense population of black bears.

The northern half and western edge of Alberta boast an excellent black bear population. Black bears can be hunted both in spring and fall. Additionally, black bears are often active throughout the day, providing exciting and successful hunting experiences. Alongside the classic black phase, a high proportion of bears in Alberta display other color phases, including cinnamon, chocolate, and blonde, which are commonly encountered during the hunt.

Hunting Areas and Conditions

Our hunting areas are located in Alberta's northern forest region, extending across the northern part of the province. The southern boundary of the hunting area borders a large military base (12,000 square kilometers) where hunting is prohibited. This creates a natural influx of wildlife from the protected zone into the hunting territories.

The terrain includes diverse forests, large open oilfields, newly logged areas, and elevated regions. In the hunting area, hunters are transported using Argo ATVs, regular ATVs, UTVs, and 4x4 vehicles, depending on the terrain. Hunts take place in open clearings, oilfields, and along old forest and transport roads, which are often lush with fresh grass and young vegetation – a favorite food source for bears in the spring.

The lodge is situated at Winefred Lake, renowned for

offering some of the world's best fishing for pike and walleye.

Black bear hunting is an action-filled and thrilling experience. It's the perfect activity for the serious trophy hunter or for families seeking a wilderness adventure that combines exciting hunting with ample fishing opportunities as a bonus.

The hunt is exclusively conducted as a spot-and-stalk hunt. Hunters and guides traverse the vast hunting area using 4x4 vehicles and ATVs, spotting bears and then beginning the intense stalk on foot to get within shooting range.

Do not expect luxury in the camp. Instead, embrace it as a true wilderness experience. Meals in the camp typically consist of sandwiches or simple ready-to-eat meals prepared over an open fire, which can sometimes feel repetitive.

Temperatures in May range from 0 to 20 degrees Celsius, and it is recommended to bring warm, windproof clothing.

About us

Limpopo & Diana Hunting Tours

Limpopo & Diana Hunting Tours Limpopo Travel and Diana Hunting Tours – which today are one and the same company - are built on more than four decades of experience in the hunting travel industry. Diana Hunting tours was founded in Svendborg back in 1974 by the internationally known figure in the hunting tour industry, Jan Krossteig, who today remains shareholder and chairman of the concern.

Over the years the company has grown into the world's largest hunting travel office, with hunting partners in more than 40 countries and customers from around the world. This has only been possible because of the strength of our customers faith in our company, our partners and the service we provide. We take great pride in the fact that a significant number of our customers are "regulars" you not only travel with us frequently, but also bring with them new customers into our business.

The hunting travel market has never been as chaotic as it is at present. There have always been a mass of small and medium sized agencies trading on the market, but in recent years the rise of the internet has really opened up the market for direct booking and packages sold by "agents" of more or less transparent character and by agencies based abroad.

A large number of hunters have had their fingers burnt booking "cheap" packages, which rarely proceed as promised. Generally it is only when things go wrong that the unfortunate hunter who bought the tour first realises what the difference between a good Danish travel agency - with all the security that entails - and a questionable foreign seller, really is.

What we offer our customers is a rather unique level of security. Our experienced staff really know our destinations and can provide highly qualified advice tailored to the customer's individual requirements. If you book your hunting tour through us you also have a guarantee against the unlikely event of bankruptcy through the Danish Travel Guarantee Fund. Our long standing membership of the Danish Travel Agency Association is also a guarantee for professional service throughout all the proceedings that a hunting tour entails - also in the event of something not going quite as planned. As one of our customers you can expect around the clock support, via our emergency hotline, in the event of anything at all going wrong.
